

# Prompt with me Facilitation Toolkit

All you need to run a successful  
Prompt with me challenge

Thriving in  
the age of AI

# Welcome!

Thriving in  
the age of AI

**“We believe that learning to thrive with AI is a journey best taken together. *Prompt with Me* began as an experiment to make AI more approachable in our daily work, and it quickly grew into a movement that connected colleagues, sparked creativity, and unlocked new ways of working.**

*Originally designed and piloted by our Finance and GBS Capability Development Team in partnership with the AI Accelerator, this initiative is now part of the Thriving in the Age of AI programme, making it possible for other teams across AZ to replicate the challenge and continue its impact.*

*Inside this toolkit, you will find a guide and practical resources to bring the challenge to your team. Use it, adapt it, and make it your own. Each new edition strengthens our ability to collaborate with AI and with each other, helping us shape the future of work across AZ.”*

**Alice Smith**

AI Upskilling & Literacy Lead

# What is *Prompt with me*?

Building on the momentum of the *Thriving in the Age of AI* certification and interactive team workshops, the Prompt with m initiative has been designed to foster practical experimentation with AI in daily work within Finance and GBS.

## PROMPT WITH ME

2-Week Challenge

AUG 1 2025 → AUG 14 2025

AZ ChatGPT

How will humans and AI work together? > What skills do I need?

What is the role of humans?

Am I future ready?

Join the Challenge to find out

- Develop new habits

Thriving in the age of AI

Watch this video to find out more about Prompt with me.

# Key results & impact

- Over **1,500 participants** from Finance, GBS, and other functions engaged, sharing hundreds of comments and insights.
- The challenge fostered **continuous learning**, boosted **productivity**, and enhanced **collaboration**, accelerating AstraZeneca's digital transformation.
- **Strong participant feedback** highlights the potential to scale and replicate the challenge company-wide.
- The success and feedback confirm a **strong appetite** to expand the initiative further.

Thriving in  
the age of AI

# What is the Challenge?

Thriving in  
the age of AI

- This program offers **10 daily challenges** over two weeks, each designed to build critical thinking, prompting skills, and human capabilities such as curiosity, creativity, and agility.
- Each day, participants receive **structured prompts** featuring context, a practical task, and opportunities to reflect and share learnings with colleagues.
- The experience is designed to be **quick** (max. 10 min/day), peer-driven, social, and directly **linked to AZ core values**.
- **Learning continues after the challenge:** Anyone who missed the challenge can visit an updated version of the Prompt with me homepage, discover the 10 challenges at-a-glance and try them out.

**1** **Kickstart me:** Guide me when I am new

**2** **Experiment with me:** Rapid prototyping

**3** **Challenge me:** Be my critical thought partner

**4** **Reflect with me:** Uncover hidden questions

**5** **Teach me:** Learn a new skill

**6** **Analyse with me:** Draw insights from multiple sources

**7** **Engage with me:** Present data with more impact

**8** **Prepare me:** Get to know someone new

**9** **Scale with me:** Create impact with re-usable templates

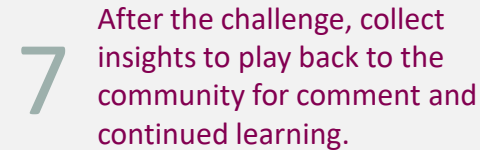

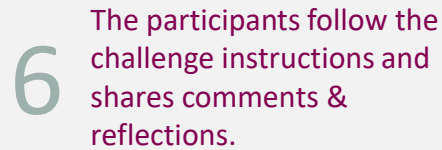

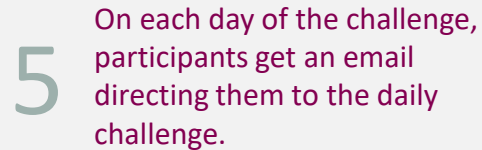

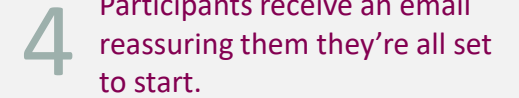

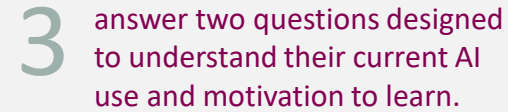

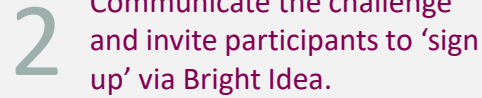

**10** **Brainstorm with me:** Be my creativity partner

# Thriving in the age of AI

- 1 Set up the challenge using the Bright Idea platform. Develop a communications plan.

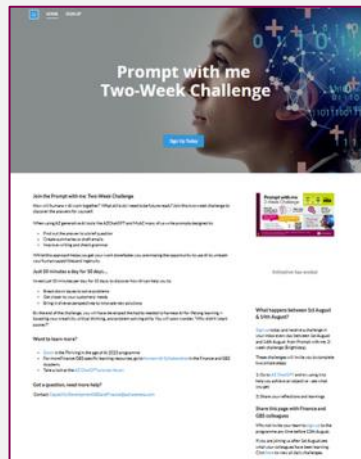

# Communications plan & branding

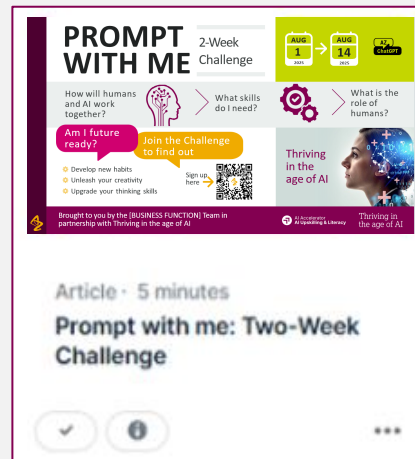

Thriving in  
the age of AI

- A robust **multichannel communications strategy** will ensure high visibility and engagement: **daily emails, push notifications, internal news posts, and blog mentions.**
- Branding has been developed in collaboration with the AI Accelerator and **visually aligns with the "Thriving in the Age of AI" theme.** The initiative can be co-branded with the leading team or department for additional ownership.
- Regular communications and event-based promotion are vital for strong participation.

Thriving in the age of AI

Participants are supported by:

- A comprehensive challenge index and objectives
- Bright Idea [request form](#) and support
- Custom visuals for each challenge, highlighting key themes of connection, curiosity, and critical thinking
- Editable templates for emails and challenge content
- Recorded communications for reference and best practices
- A reusable **playbook and step-by-step guide**, hosted on SharePoint for easy access and adaptation

| Challenge                                                         | Goal & Tasks                                                                                                                                                                        | Human Skills                                                                       | AZ Values              |
|-------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|------------------------|
| 1<br><a href="#">Kickstart me: guide me when I am new</a>         | Build my understanding of AZ, its people, policies and products. Summarize AZ's key therapy areas in simple terms for someone working in pharma for the first time.                 | #curiosity<br>#learning_agility<br>#self_awareness                                 | We Put Patients First  |
| 2<br><a href="#">Experiment with me: Rapid prototyping</a>        | Engage with my team to address customer service issues. Do rapid testing on three different prototype designs, resulting in a 60-minute team exercise.                              | #innovation<br>#agile-ways-of-working                                              | We Are Entrepreneurial |
| 3<br><a href="#">Challenge me: Be my critical thought partner</a> | Improve the quality of my work by acting as an on-demand critical partner. Get feedback from a range of personas with diverse perspectives.                                         | #critical_thinking<br>#invite_diverse_perspectives<br>#feedforward_for_improvement | We Follow The Science  |
| 4<br><a href="#">Reflect with me: Uncover hidden questions</a>    | Uncover questions that otherwise I might overlook. Prepare for my Q2 check-in by identifying reflective questions to uncover hidden topics that allow me to stretch myself further. | #coaching<br>#asking_good_questions<br>#reflection<br>#self-awareness              | We Do The Right Thing  |
| 5<br><a href="#">Teach me: Learn a new skill</a>                  | Follow a step-by-step guide to learn a new skill. Learn how to build a Power BI dashboard from scratch.                                                                             | #learning_agility<br>#growth_mindset<br>#digital_literacy                          | We Are Entrepreneurial |

# Lessons learned

- **Sustaining Engagement:** Engagement declined after the first days; gamification or team competitions could help maintain interest.
- **Effective Communication & Challenge Design:** Multiple communication channels boosted sign-ups, and quick, practical daily challenges encouraged participation.
- **Sharing Participant Voices:** Sharing testimonials helps foster team conversation and reflection about the program and its challenges.

Thriving in  
the age of AI

# Adapt & customise for your team

Thriving in  
the age of AI

- The **Prompt with me: Two-Week Challenge** is designed to be scalable and **customisable**. All Departments and teams beyond Finance and GBS are invited to **tailor it to their needs**.
- **Leverage the playbook and templates to launch your challenge** and support your people to develop critical Human + AI skills, drive innovation and maximise impact.
- For **guidance or resources**, contact the colleagues listed below and start your own transformation journey.
